

We offer the original purchaser of our vinyl fencing a non-prorated warranty, ensuring that our fencing, railing, and specialty extrusions will be free from defects in material and workmanship when used properly and under normal conditions. This non-prorated, limited lifetime coverage applies only to the individual homeowner who purchases the product and remains in effect for as long as the purchaser is the owner and primary occupant of the property where the fence is installed.

In addition, we provide a lifetime craftsmanship warranty on installation, covering the labor and workmanship of your vinyl or aluminum fence. This warranty does not apply to damage caused by malicious activity, acts of God, or normal wear and tear. We also include a lifetime post-in-the-ground warranty, which covers the integrity of the galvanized steel and aluminum posts installed in the ground. For full details regarding this warranty coverage, please feel free to contact us.
